(a) Maintenance fee. Bills for water service include a monthly maintenance fee, which is necessary to maintain and operate the water system. The maintenance fee shall be assessed, billed, and payable in accordance with the rates provided for in a Resolution adopted by City Council, as the same may be amended from time to time. Every water user whose property or structure is physically connected to the water system shall pay a monthly maintenance fee for the privilege of being connected to the water system. Such maintenance fee shall be billed and payable without regard to whether any water was actually consumed by the water user during the applicable billing period. Maintenance fees shall be assessed, billed, and payable regardless of any discontinuation of water service that is requested by a water user or imposed by the Municipality with respect to the failure of a water service customer who is connected to the water system to pay fees and charges. In any multi-unit dwelling that is serviced by one meter, the monthly maintenance fee for water shall be billed per dwelling in said unit. "Multi-unit dwelling" means a residential unit, whether a private home, apartment house, motel or other type of residence, in which there is more than one individual living unit.

(b) **Consumption rate.** In addition to the applicable maintenance fee, all water users shall be charged for water supplied to them by the Municipality according to meter measurement. Charges with respect to such water consumption shall be calculated, billed, and payable in accordance with the rates provided for in a Resolution adopted by City Council, as the same may be amended from time to time.
